## 85 Years of Family Pride in Quality Mason Shoes!

This is an important year for Mason Dealers, Mason Customers and the Mason Family. It is our 85th Anniversary!

We've made a special effort to bring you an Anniversary Edition of the Mason Shoe Catalog that is packed from cover to cover with up-to-date styles...solid comfort...quality materials...and American craftsmanship.

Although this catalog looks a lot different than our first catalog, there is one thing that has remained the same over the years...our dedication to offer a product that Mason Dealers can be proud to sell and their customers can be proud to wear.

We are constantly exploring new methods of footwear construction, as well as looking into all the latest advances in cushioning, shock absorption, flexibility and weight reduction.

At Mason Shoe we have never been satisfied with just staying the same, we are constantly striving to bring you the finest footwear in the world.

You'll be able to see some of that in the first few pages of this catalog with our new "Executive Imperial" styles featuring trim continental styling combined with a comfortable American fit.

There are many others that are just as innovative; look for our "NEW STYLE" symbol throughout the catalog.

Of course, we still have many old favorites in this Anniversary Edition of the Mason Shoe Catalog.

Where would we be without the solid styles that have withstood the test of time...the styles we have built the Mason reputation of quality on over the years.

I believe Mason Dealers and Mason Customers alike will find this catalog to be one of our best ever.

Welcome to our 85th Anniversary Edition of the Mason Shoe Catalog. The Mason Tradition of Fine Quality Footwear continues!

## The Mason Guarantee of Satisfaction

"I Personally Guarantee  
Your Complete Satisfaction!"

*Vic Mason*

We're confident of the quality of all Mason products...we want you to share that confidence.

It's important to us that you are completely satisfied, so this Guarantee is in effect for **One Full Year**.

### Workmanship—Materials

FIRST, if workmanship or materials are not up to Mason's High Standards, return the product to us and we will either **REPLACE**, **REPAIR**, or **REFUND** every cent paid Us.

### Style—Size—Fit—Comfort

SECOND, if the style, size, fit, or comfort isn't everything you had expected, return them and we will either **REPLACE**, or **REFUND** every cent paid us. (NOTE: If the returned product shows signs of wear, we will make a fair adjustment based on the amount of wear.)

We are not able to cover any damage due to accident, misuse, or abuse.

### Instructions For Returning Merchandise

Mail the merchandise prepaid by insured Parcel Post or U.P.S. to:

# The HASSLE-FREE Way to Shop

Doing your shopping through a catalog is an easy, pleasant way to order merchandise. With Mason you have a huge shoe store right at your fingertips, ready to open for business at a moment's notice. Plus, look at these other benefits...

You won't have to deal with a department store salesperson who may be having a bad day, or one that's busy with other customers. Mason Dealers make contacts because they have a sincere interest in their customers. Mason shopping is as relaxing as having a cup of coffee with a friend.

Trips downtown or to the shopping mall are not needed. No traffic to battle, no searching for a parking place, no gas to waste. You can shop from your easy chair at home...during a break at work...or any leisure time you have available.

Shopping with Mason means no crowded stores...no long check-out lines...no picked over merchandise. Mason shoes can be delivered right to your door or your place of business.

## SIZES—SIZES—SIZES

One of the biggest advantages to shopping with Mason Shoe is the variety of sizes. We have lengths that range from 4 to 16...and widths AA to EEEE. There's no retail store able to carry that kind of selection...but Mason has it all for you, right here!

# The Mason Glossary of Shoe Terms

## velvet-eez® AIR CUSHIONED INNERSOLE

Mason Shoes' Velvet-eez Air Cushioned Innersoles pamper your feet as never before. Your feet rest on a luxurious sponge rubber cushion composed of thousands of tiny air bubbles. You'll feel like you're walking on air.

A soft, smooth surface is featured for your comfort. Our top-of-the-line shoes have a leather covering.

Some of our Velvet-eez styles also feature a longitudinal arch cushion. It's a special touch that will make Mason shoes the most comfortable you've ever worn.

Not all Mason styles have Velvet-eez. Look for the large "Velvet-eez" on the pages with shoes that do have this special comfort feature.

**ANTIQUING:** When shoes were entirely hand-made, the oil and moisture from a shoemaker's hands would create darkened areas on a piece of leather. It was a sign of quality. Today, we recreate that handcrafted look with the use of a dark highlight spray finish.

**BELLOWS GUSSET:** A wide tongue is securely stitched to each side of a shoe or boot. Its purpose is to keep out dust, dirt, pebbles and water.

**BURNISHED:** Polishing and buffing a shoe leather to a high gloss finish. In many cases this is accomplished by hand-rubbing the leather. Special buffing wheels are also used.

**CAMBRELLE®:** Extremely durable, comfortable shoe lining material. Often referred to as the "Living Lining" because of its special properties. It is a perforated fabric covering over a lightweight, cushiony material.

CAMBRELLE® has the ability to absorb up to three times its weight in moisture while keeping your feet dry. It will then dry out soft and natural in a few short hours.

CAMBRELLE® is also treated to resist mildew, mold and foot odor.

**COMBINATION LAST:** All Mason shoes are built on combination lasts. This is the form a shoe is built around. The width at the heel of a combination last is one or more widths narrower than the width at the ball of the foot. It assures a snug, comfortable fit.

**COMPOSITION DRESS SOLE:** This is a man-made sole generally composed of a rubber base with various materials mixed in to add to its flexibility and strength. It is longer wearing than a leather dress sole. Our composition dress soles are non-marking, oil-resistant and water-resistant.

**COUNTER:** (See Heel Counter)

**CUSHION CREPE:** Soft, bouncy material used in soles for casuals and work shoes. It's a lightweight, shock-absorbing sole that will outwear leather about three to one. This sole is slip-resistant. Also used for our "Rocker Bottom" and "Forward Thrust" Soles.

**COWBOY HEELS:** (See Western Heels)

**ELASTIC GORE:** A strong knit fabric with strands or threads of rubber built in to allow it to stretch and flex. Used mostly in our slip-ons to provide you with a comfortable, foot-hugging fit.

(continued on inside back cover)

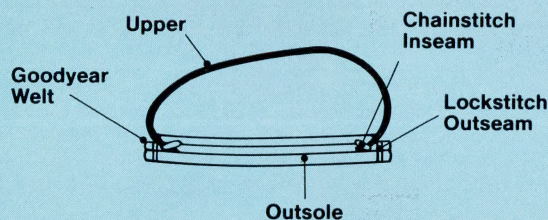

## Goodyear Welt Construction...for a more durable shoe

Goodyear Welt Construction is a familiar term in the shoe industry...it is recognized by shoe experts to be a standard of quality.

**But how exactly is a Goodyear Welt shoe constructed?**

The welt is a narrow strip of leather or vinyl which is first chainstitched to the upper and the insole to hold them together...the welt is then lockstitched to the outsole.

Durability is another feature of a Goodyear Welt Shoe. The combination of superior stitching and quality materials mean years of comfortable wear. Eventually, all soles wear out, but with a Goodyear Welt Shoe, a new sole can easily be put on at far less cost than purchasing a new pair of shoes.

## Premium Leather Uppers Oak-Tanned Leather Soles

### Styles 136, 137, 138

Mason Shoe invites you to step up to the shoe design of the 90's.

We've incorporated updated European detailing to give this tasseled dress shoe a sleek, continental look that says, "Success."

And, Mason's Research and Development Department was able to combine that trim continental styling with **Comfortable American Fit** by using a specialized shoe last.

Now this shoe is available to you in our exclusive Executive Imperial Line of Fine Footwear.

Let's take a closer look at this unique style...

- Subtle antiquing adds a soft luster to the rich **Full Grain Leather Uppers**.
- **Oak-Tanned Leather Soles** make a definite quality statement. And, they're specially treated for long wear.
- Rubber Heels with soft cushion rubber inserts will add a youthful bounce to every step you take.
- Double vamp stitching follows the gentle contours of this shoe as it hints of Old World Craftsmanship.
- Leather Goodyear Welt Construction... quality shoe, quality construction.
- Leather-Covered **Velvet-eez** Air Cushioned Innersoles...it's like walking on thousands of tiny air bubbles.
- Leather quarter linings.
- Elastic goring for a gentle, foot-hugging fit.
- Sturdy leather heel counters for lateral stability...tempered steel shanks for durability.
- **Made in the U.S.A.**

### Styles 276, 277, 278

Mason Shoe has transformed the rich tradition of the penny loafer into a sophisticated, well-bred, continental dress shoe.

A hint of carefree elegance remains, but the neat, uncluttered lines are definitely European in nature.

The look may be European, but you're going to be especially pleased with the custom-like, comfortable fit brought to you by Mason Shoe's American Craftsmen.

**Antiqued, Full Grain Leather Uppers** take a nostalgic trip back to the days when cobblers pulled the uppers over the shoe lasts by hand, leaving darkened edges on the leather from their own sweat and natural oils.

#### Oak-Tanned Leather Soles.

Oak-tanning toughens the hide, condenses it, and preserves it. Mason adds an extra treatment to make our leather soles wear longer.

**Leather-Covered Velvet-eez Air Cushioned Innersoles** assure you luxurious underfoot comfort.

We don't stop at the obvious quality features, we also built in quality that requires a closer look...

Quality like Leather Goodyear Welt Construction...Leather Quarter Linings...Sturdy Leather Heel Counters...Tempered Steel Shanks...and Rubber Heels with soft cushioned inserts to put a bounce in your step.

All from Mason Shoe's Executive Imperial Dress Slip-Ons...**All Made in the U.S.A.**

Vic Mason took a special interest in the design and construction of this particular style. It represents a new concept in modern footwear.

You would be hard-pressed to find a dress oxford with the Unique Comfort Features...Updated Continental Styling...and Superb Fit of the shoes pictured here.

We've buffed the **Full Grain Leather Uppers** to a soft, subtle luster. You'll also notice a rich, antique shading that adds a handcrafted look.

**European Styling...American Fit**

You can readily see the European influence in the sleek, trim lines of this style...but, our designers were also able to come up with a shoe last that gives you a comfortable American fit. That's what sets these shoes apart from all the others.

Now, take a look past the precision styling for a moment and take note of the padded collar that sweeps around the topline.

Up until now you may only have experienced ankle comfort like this in an expensive casual or walking shoe.

## The "Ultimate" Handsewn Casual

If there's a better built, handsewn dress loafer out there we haven't seen it yet.

Here at Mason Shoe we went to great lengths to build the "ULTIMATE" dress casual... we succeeded!

Now, you have the opportunity to own these superior quality shoes from our "Diplomat" line of footwear.

From the first moment you put them on your feet, you'll appreciate the extra quality and care that went into these casuals.

Here's what you can look forward to...

- **Full Grain Leather Uppers.** We use only the finest leather available. You can actually see the natural grain of the leather. And, we've added rich antiquing for a cobbler-made look. Unlined.

- **Double Leather, Oak-Tanned Soles.** We've built in an extra layer of thick leather for added wearability. Not many manufacturers would give you this extra quality...Mason will!

- **True Moccasin Construction.** This unique feature wraps those full grain leather uppers around your feet in total, natural comfort.

- **Handsewn Moccasin Toe.** Carefully hand-sewn, then finished with sturdy "beef roll" stitching on either side of the vamp.

- **Rubber Heels.** Designed for durability as well as walking comfort.

- **Cushioned, ¾-Length Insole Cover.** A final comfort touch to the "ULTIMATE" Dress Casual.

- **Made in the U.S.A.**

## The Answer is... Cool Comfort!

**The Question is...What feature do you look for in a warm weather casual?**

Mason Shoe does more than answer the question...we take it a step further, we construct the shoe.

**Introducing our Buffalo Calfskin "Diplomat" Dress Casual!**

### FLEXIBILITY

Most of the soft flexibility of this shoe is directly related to Mason's FLEX-TECH™ Sole.

It's composed of a unique urethane compound that is light in weight, extremely supple, and shock absorbent. It bends with ease and springs back into shape for miles of comfortable walking.

### QUALITY

We selected fine Buffalo Calfskin Leather for its softness, as well as its ability to burnish to a gentle luster. We then wrap those leather uppers around your feet in true moccasin construction.

### COMFORT

For your comfort we have full leather linings in addition to ¾-length, soft cushioned insoles. You'll appreciate the expandable elastic gore across the instep...it provides a gentle, foot-hugging fit.

### COOL BREATHABILITY

Here comes the "clincher" for warm weather comfort...the woven vamp. It provides you with "summer breeze" coolness all day long and into the night. **Made in the U.S.A.**

## Kidskin Leather Offers Unique Lightweight Flexibility

**Supple Kidskin Leather** offers special qualities that make it one of the finest dress leathers available today...it's soft, flexible, and it takes a handsome shine.

To complement that soft flexibility we've added **FLEX-TECH™** soles.

FLEX-TECH™ soles are composed of a unique urethane compound that provides amazing lightweight flexibility in addition to being extremely durable. That means you'll be enjoying these fine Kidskin dress shoes for many seasons to come.

Another feature you're sure to appreciate is the true moccasin construction. It wraps those kidskin leather uppers around your feet in a "tunnel" of comfort.

We've also added full, glove-soft leather linings...¾ length padded insoles to add to your walking pleasure...and elastic goring to assure you a comfortably snug fit with every step.

Come to the **COMFORT** of our Hand-sewn Kidskin Diplomats...walking will never seem the same again. **Made in the U.S.A.**

# Dress For Comfort

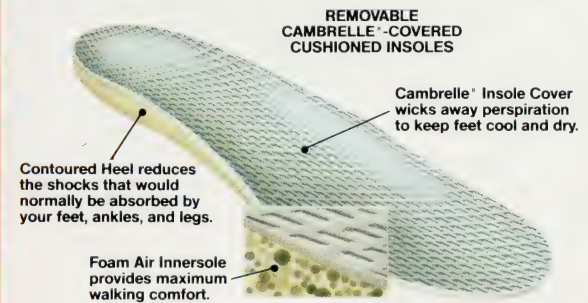

## Dress Shoe Styling... Walking Shoe Comfort!

Now you can enjoy the comfort of a fine leather walking shoe while wearing your dress suit.

The outside may have changed to dress... but the inside is still pure walking comfort from heel to toe.

- **Full Grain Leather Uppers.**
- Vibram® Evaflex™ Microcellular Cushion Soles...designed to put a comfortable bounce in your step.
- Cambrelle®-Covered Cushioned Insoles with contoured heel cup...removable so you can air them out between wearings.
- Padded Tongue and Padded Collar provide instep and ankle comfort.
- Durable Stitchdown Construction gives the shoe a sleek profile and plenty of toe room.
  - Sturdy Heel Counter adds lateral stability.
  - Soft, Supple Cowhide Leather Quarter Lining.

Mason brings a whole new dimension of comfort to dress shoes. **Made in the U.S.A.**

### TUNNEL GORE

A four-inch length of elastic slides freely through a "tunnel" of smooth leather. The gore is hidden, and the elastic does not rub against the instep.

Because the elastic gore is not stitched to the leather tunnel, you get maximum flexibility, wonderful instep comfort and better fit whether walking or standing.

## 50 Million Americans Agree...Exercise Walking Is A Great Way To Keep Fit!

Walking for Fitness has become an important part of the lives of more than 50 million Americans.

It's an excellent way to strengthen your heart and lungs...reduce blood pressure...tone and firm up muscles...and give you added energy and stamina.

### Walking Is Safe And Natural

Walking is a natural movement...

without twisting, sharp turns, or bone-jarring stops...just a smooth, fluid, forward motion with a minimum of stress on muscles, joints and ligaments.

This means walking is virtually injury-free.

### Walking Provides A Healthy Aerobic Workout

The secret to a good aerobic workout is repeating a movement that involves large groups of muscles. A number of activities fall into this classification...running,

cross-country skiing, swimming and, of course, walking.

You have to do the activity briskly so you increase your heart rate to get maximum benefit.

**(As a side note, you burn approximately the same number of calories walking a mile as you do running a mile.)**

### Walking For Fitness Provides Other Benefits

In addition to increasing your overall fitness, walking gives you time to think. It's a great way to relieve the day's tensions. You'll also find you are more alert as you perform your daily tasks.

### All Ages Can Walk For Fitness

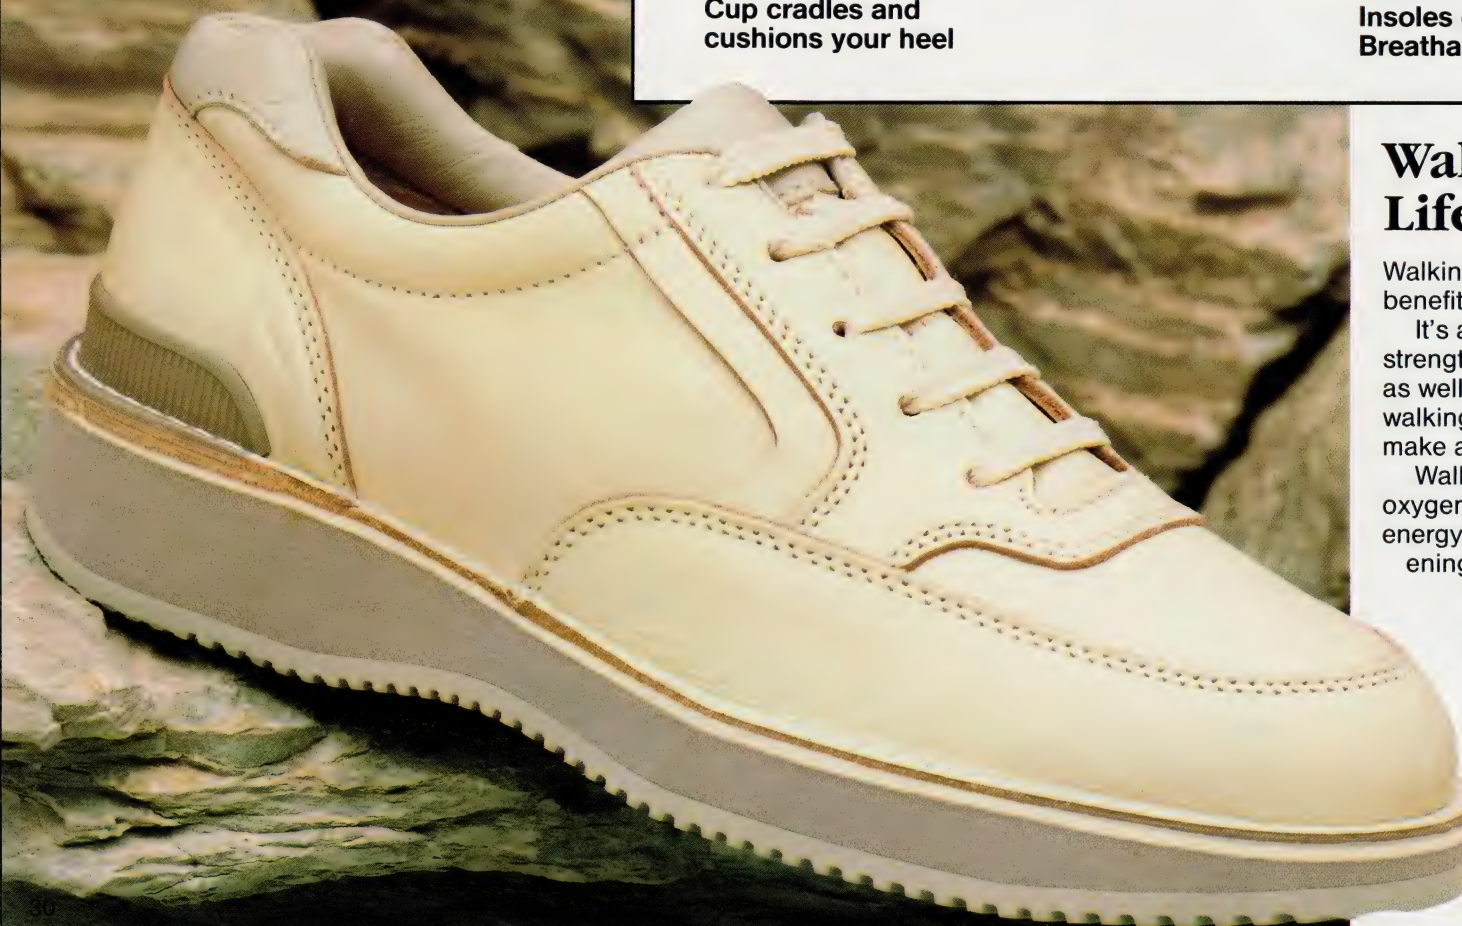

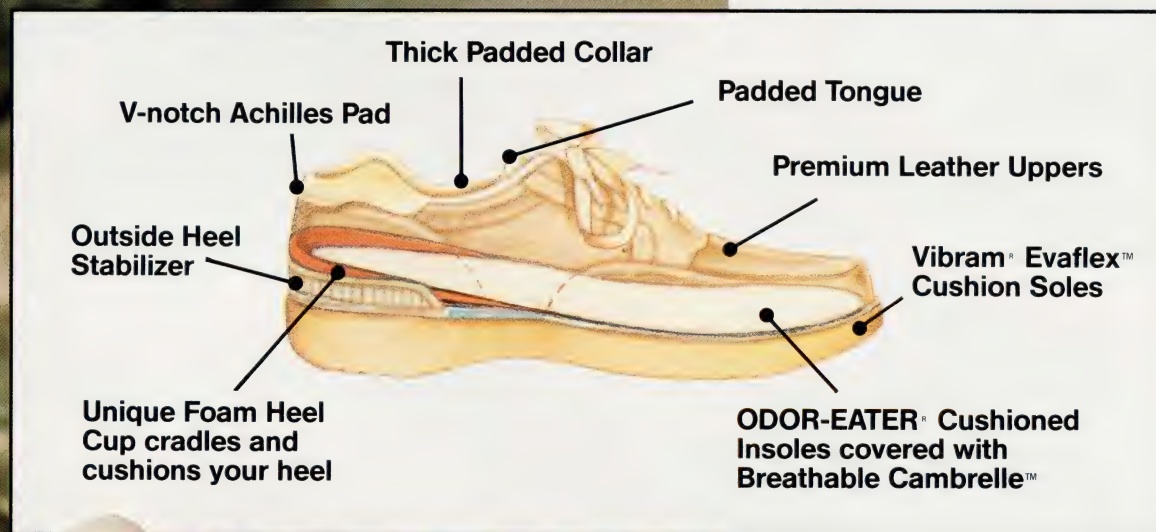

Anyone can enjoy the benefits of walking...there is no age limit.

You can set the time and length of your walk...you can walk with a friend or you can walk alone.

All you need is a good pair of walking shoes and that's where Mason Shoe's 85 years of shoe-making knowledge and craftsmanship becomes important.

**We believe some of the finest walking shoes in America are made right here at Mason Shoe Manufacturing Company in Chippewa Falls, Wisconsin. Try a pair and you'll understand why we are so confident in the comfort, quality and durability of Mason Walking Shoes!**

## Walking Is A Lifetime Sport

Walking is a sport you can enjoy and benefit from all your life.

It's also an excellent way to strengthen and tone your muscles, as well as reduce your weight. (Just walking a few miles every day can make a difference.)

Walking increases the flow of oxygen-rich blood to give you more energy and stamina, as well as sharpening your senses.

You'll be able to enjoy life more and perform your daily tasks with greater ease.

**Mason's Walkabouts™ can help you achieve those goals.** Try a pair and feel the difference they can make in your life! **Made in the U.S.A.**

## Wake Up Your Life With A Brisk Walk

Did you know a brisk 45 minute walk on a regular basis can help you lose weight, improve your overall health, and, in general, give you a fresh, positive outlook on life?

It can, and Mason's WALKABOUTS™ can help you "Wake Up Your Life!"

Slip them on, lace them up snugly, and start walking. Be prepared for a new sensation after your first few steps. You'll find your feet are in a whole new cushioned, supportive environment...and it feels good.

It feels so good, you'll find yourself looking forward to your walks...and, regular exercise is the key to staying fit.

Let's take a look at what makes these sporty, athletic walking shoes so unique...

- **Soft, Pliable Garment Leather Uppers...**gentle to the touch and perfed at the vamp for cool breathability.
- **Contoured, Cushioned Insoles** covered with a soft, brushed fabric. This insole is removable so you can air it out between walks.
- **Compressed EVA Midsole.** This state-of-the-art compound can soften and bounce back from the hardest terrain, whether it's concrete streets or a path through the woods.
- **Durable Outsole** with sure-footed traction pattern for your walking safety.
- **Solid Quality and Comfort** with Thick Padded Collar...Thick Padded Tongue...Soft, Foam-Backed Nylon Lining...and Sturdy Heel Counter for lateral stability.

**Because the styles on this page are not available domestically, we have imported them from a quality factory. Each pair is inspected by the people in our Mason Factory to double check the quality for you.**

## What A Great Idea... **WALKABOUT™ Sandals & Contoured Insoles!**

When you put on a pair of sandals, you're interested in open, natural comfort. With our WALKABOUT™ Sandals you'll get more than you expected.

At Mason Shoe we decided a flat insole in our New WALKABOUT™ Sandals just wouldn't do.

That's why these sandals have a unique, leather-covered, cushioned insole that's shaped to follow the natural rolls and curves of the bottom of your feet. There's even a gently rounded "Toe Grabber" ridge.

In technical terms this special insole system is referred to as "internal load dispersal foam." That's a real mouthful, but what it boils down to is...Comfort! Comfort that's similar to walking barefoot without the unpleasant effects of stepping on twigs and stones.

Choose the Buckle or Criss-Cross WALKABOUT™ Sandal. Both feature **Supple Leather Uppers...** Spongy, micro-cellular soles that provide an added shock-absorbing barrier between your feet and hot sandy beaches, as well as city side-walks. **Made in the U.S.A.**

## Professional Quality Golf Shoes

*Guaranteed\* Waterproof  
Leather Uppers*

If quality-built, comfortable golf shoes could take strokes off your game...these shoes would have you shooting with the pros.

We can't make that promise...but we can promise you total comfort no matter where you go on the course.

- **Crushably Soft Leather Uppers**...Guaranteed\* Waterproof so morning dew and afternoon sprinkles just bead up and roll off.
- Hardened Steel Spikes...removable for your convenience.
- Easy-Walking Cushion Crepe Soles.
- Smooth, Glove-Soft Leather Quarter Linings.
- Leather-Covered **Velvet-eez** Air Cushioned Innersoles. An average 18-hole golf course can mean 4 to 5 miles of walking...foot comfort is very important.
- Leather-Lined Tongue with permanently attached kiltie designed to keep laces free of dust, dirt and sand.

When you're eyeing up that tough shot on the 18th hole, with the sand trap on one side and water hazard on the other side, the one thing you won't have to worry about is the comfort of your Mason Golf Shoes. **Made in the U.S.A.**

### \*Special Mason Shoe Waterproof Limited WARRANTY\*\*

This is a **SIX MONTH WARRANTY** from the time you receive your shoes...**Styles 338 and 339**. If these shoes are not waterproof during those six months of normal use, we will either **REPLACE** them with a **NEW PAIR** at no additional cost, or **REFUND** every cent you paid us.

# These Flexible Casuals Create The Feeling Of Floating On Air

Slip into a pair of these **Soft, Full Grain Leather Casuals** and be prepared for a comfortable surprise. You'll feel like you're floating on air... and, actually you are.

Mason creates this unique sensation by a combination of Cushion Crepe Soles and Cambrelle®-Covered **Velvet-eez** Air Cushioned Innersoles.

Cushion Crepe Soles, with their micro-cellular construction, gives you a springy, bounce-back feel with every step you take. You'll also find them extremely flexible and durable as well.

**Velvet-eez** Air Cushioned Innersoles indulge your comfort further with their luxurious foam rubber construction. Thousands of tiny air bubbles compress and recover as you leisurely walk along.

We've covered our Velvet-eez Innersole with breathable Cambrelle® for the final layer of comfort. Cambrelle® is a fabric lining that wicks away moisture, then dries soft for long-lasting comfort.

An expandable elastic gore across the instep holds this slip-on comfortably snug to your foot. A sturdy heel counter provides stability. And, they're unlined for cool, natural comfort. **Made In The U.S.A.**

# More Than Ten Square Feet of Leather Per Pair!

Two distinct boots done in stormy western sky grey!

**STYLE 931—Grey Bullhide Western.** We've taken tough Bullhide leather and used it for the foot of this unique western boot.

Deep, grooved lines and patterns reflect the rugged character of this leather. We've matched it up with a Full Grain Cowhide Leather shaft that features 3-needle (triple-stitched) design. "R" toe...a medium narrow western toe.

**STYLE 946—Grey Marbleized Cowhide Western.** The foot of this boot features dark, marbleized shading for a rugged, natural look. Full Grain Cowhide Leather foot and shaft. "Sun-belt U" toe...a medium round western toe. 2-needle (double-stitched) shaft design.

**BOTH BOOTS FEATURE...** Oak-tanned Leather soles. • Leather Goodyear Welt construction. • Leather-covered **Velvet-eez** Air Cushioned Innersoles. • Leather pull straps.

They also boast...tempered steel western shanks...deep-dip shafts...and 2-inch western cowboy heels with rubber top lifts.

# Soles Must Outwear Uppers Or You Get New Pair!\*

## Premium Marbleized Leather Uppers

After looking at the abrasion resistance tests for this sole, we believe you could walk from El Paso, Texas to Chippewa Falls, Wisconsin with these boots and still have plenty of sole left to give you years of wear.

We're not suggesting you take that walk, but we wanted you to know just how tough this sole is... it also resists oils and acids, and it's non-marking. (We've even developed a special heel with all those durable properties.)

It's so durable we say it will outlast those Premium Leather Uppers or we will replace them with a brand new pair, or repair them, or give

you a refund of every cent you paid us.\*

We've talked a lot about those tough soles, but just take a look at those **Handsome, Premium Leather Uppers!** It's a special leather that's soft to the touch with a marbleized look...subtle shading runs at random throughout the leather to add a rugged, natural aspect.

Other features include...**Velvet-eez** Air Cushioned Innersoles...Two-Needle (double-stitch) western shaft design...stitched toe medallion... 2-inch western heels with extra thick, abrasion-resistant Nitrile rubber top lifts...smooth shaft linings... tempered steel western shanks... sturdy heel counters...leather pull straps...the "R" toe, a medium narrow toe...and quality Goodyear Welt Construction. **Made in the U.S.A.**

## Sylflex™ Tanned Leather Uppers

Sylflex™ is a special triple-treated Silicone tannage which keeps leather permanently water-repellent...yet allows it to breathe. After being treated with this Silicone, the leather is at least 25 times as re-

sistant to water as ordinary leather. The Silicones are tanned clear through...it's not just a surface coating...in fact, scuffed areas retain its unique water resistant qualities.

It doesn't fill the pores like grease. The leather also takes a brilliant shine and it won't stiffen, curl, or crack.

Besides the Sylflex™ Treated Leather Uppers, both styles also have oil-resisting, non-marking, slip resistant, durable and flexible cushioned soles...Goodyear Welt Construction...leather quarter lin-

ings...tempered steel shanks...and Mason's exclusive Velvet-eez Air Cushioned Innersoles with longitudinal cushion. Style 900 also has a padded tongue.

### Take the Effort Out of Walking!

The Rocker Bottom Sole uses the "Rocking Chair" principle to take the effort out of walking! The tapered design allows you to rock forward on the ball of your foot with each step. Support is concentrated at the metatarsal—the natural fulcrum of the moving foot. This rocking motion minimizes bending and creasing of the vamp—preserves new appearance of the shoe.

### Cush-N-Crepe

*"I have worn my style 611 shoes daily since I received them several months ago. The Velvet-eez innersoles and Rocker Bottom Soles make them more comfortable than any shoes I've ever worn."* — Donald W. Browe, Michigan.

### The ideal boot for Sportsmen, Outdoor Workers

- **WATERTIGHT SOLE CONSTRUCTION**—The sole and heel are bonded to the leather upper. Water and dampness are sealed out by this process.
- **NEWEST LEATHER FOR ACTION FOOTWEAR**—No other leather yet developed can compare for resistance to water. Designed to meet the sternest tests given footwear that gets constant outdoor use. Remains soft and supple after exposure to extremely wet conditions.
- **UPPER SEAMS ARE SEALED TIGHT**—All seams of the upper leather including the moccasin toe, gusset, side seam, etc. are sealed with a special new watertight compound.
- **NEW EXTRA LONG WEARING SPECIAL SOLE**—Non-marking sole has twice the wear resistance of most crepe sole materials. This sole is lightweight, shock absorbing, and slip resistant. Heat and cold do not affect this sole. It is chemical, oil and acid resistant. **Made in the U.S.A.**

This deluxe 9-inch leather boot is made for the man who will settle for nothing but the very best in outdoor footwear. Insulated to keep feet **WARM** with special sole to keep feet **DRY**. This combination makes a perfect boot for sportsmen, outdoorsmen and construction workers. The full grain upper leather is the finest available. It is 100% waterproof

and resists acids, alkalis, and salty slush. This leather will not harden or crack, but stays soft and supple. Completely leather lined with soft glove tanned cowhide. Bellows type gusset. Sturdy speed laces. Extra strong steel shanks. Soft Velvet-eez Air Cushioned Innersole with longitudinal cushion.

### 100% WATERPROOF FOR SIX FULL MONTHS

Water transmits cold very quickly. These boots are watertight. Therefore the insulation stays dry and keeps feet really warm. Mason's insulated boot is guaranteed 100% waterproof for a full 6 month period—many men get years of completely dry wear.

To maintain the waterproof qualities of this boot we recommend Silicone Treatments at regular intervals.

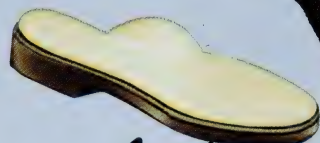

Thousands of unconnected **AIR CELLS** between two layers of leather provides **DEAD AIR SPACE** insulation—keeps cold out and holds body heat in.

# Surround Your Feet In Cushioned Comfort and Steel Toe Protection

When you're on your feet all day at work, comfort can become as important as safety.

Mason's Top Rated Steel Toes fill your need for safety...now, we've put those steel toes into a comfortable, cushioned chukka boot.

## SAFETY

Your safety is our #1 concern. That's why we use only the finest, rust-resistant, tempered steel toes.

These chukka steel toe styles earned a top rating of MI/75 C/75 in accordance with ANSI Z41 PT83.

We then surround your feet and those steel toes with **Tough, Full Grain Cowhide Leather Uppers**. And, tough doesn't mean stiff and

uncomfortable. We've tanned those leather uppers to be supple for flexible comfort from your first step.

## COMFORT

Speaking of comfort, we've built in plenty!

- Vibram® Evaflex™ microcellular cushion soles with superior shock-absorbing capabilities. Long-wearing...non-marking.
- Leather-lined quarters...cool, breathable Cambrelle® lined vamps.
- Contoured sponge cushion heel cup.
- Soft Air Cushioned Innersoles covered with Cambrelle®.
- Durable stitchdown construction for added toe room.
- Padded collar.
- Padded tongue.
- Sturdy heel counter for lateral stability.

Safety and Comfort in a Top Quality Chukka. **Made in the U.S.A.**

(NOTE: The Black Chukka, style 685, has been approved for use by U.S. Postal Workers. See details for postal orders on pages 60 and 61.)

# A Leather Pump That Stretches and Relaxes With Your Foot

Finally there's a dress shoe that treats your feet as gently as a casual.

The secret is the elasticized topline...it assures you a comfortably snug fit with each and every movement of your foot.

To complement this unique feature we have chosen a **Supple**

**"Plonge" Leather** with butter-softness that will make these shoes a pleasure to wear all day long and into the evening. (See separate box explaining "Plonge" Leather.)

This combination is so soft and flexible, you'll notice a slight, gentle pucker around the topline when

you take them out of the box. That pucker quickly smooths out when you slip them onto your feet.

Other quality features include soft, leather-like linings... soft cushioned insoles... flexible composition dress soles...and trim 2-inch heels.

Step into the "Comfort Zone" with Mason's Elasticized Leather Dress Pumps! **Made in the U.S.A.**

## WHAT IS "PLONGE" LEATHER?

"Plonge" is French for "drum dyed," and originally referred to glove leather.

Plonge is lightweight, smooth and silky to the touch and extremely soft. It provides comfort and breathability.

It is a genuine full grain leather. It has only a very light spray finish on the surface, so the feel of a piece of natural leather is preserved.

# "Soft Hugs"...

## Leather Pumps That Embrace Your Feet

"Soft Hugs" stretch and flex with your feet. How do they do it? We've hidden a strip of elastic in the front part of the topline.

You won't even know it's there until you put them on. Then you will know their secret, as they gently "hug" your feet with every movement, every step.

And, oh what comfort with their **Supple "Plunge" Leather Uppers**. "Plunge" Leather is a full grain leather that is specially tanned to an irresistible butter softness.

Inside, the comfort continues with soft cushioned insoles...foam-backed nylon vamp linings...and leather quarter linings.

It's all set on a flexible dress sole with slip-resistant insert and 1½-inch walking heels.

Pamper your feet with the huggable, flexible, lightweight comfort of Mason's "Soft Hugs" Dress Pumps. **Made in the U.S.A.**

# Perfed "Plonge Leather" Pumps Flex Effortlessly

If you're looking for a cool, ultra-flexible dress pump, look no further.

These **Soft, Perfed, "Plonge Leather" Pumps** will bend with just a "whisper" of a touch. That translates into silky smooth walking comfort you've only dreamed about up until now.

To create a shoe this soft and flexible we merged **Supple Leather Uppers** with trim, light urethane dress soles. The result is a pump you can slip on in the morning and wear all day into the evening hours.

Their appeal is further enhanced by soft, cushioned insoles...leather heel counters...and 1½-inch walking heels. **Made in the U.S.A.**

To go with your New Ultra-Flex Pumps try one of our **Color-Coordinated Shoulder Bags**. These 11 x 7-inch bags have a magnetic snap on the front flap.

Inside is a roomy main compartment and a zippered wall pocket for those small items. And, you have the option to drop the strap inside and carry it as a clutch. **Made in the U.S.A.**

# Shiny Insets Highlight Smooth Styling

Sleek, shiny insets at the toe and heel add a touch of daring style to these pretty pumps. They turn a basic dress pump into a fashion statement.

The shiny insets are the perfect complement to the elegant, smooth uppers.

## New FLEXIBLES Sole by Mason with Built-in Memory

We've set this two-textured pump on a new, innovative dress sole that is approximately twice as flexible as regular dress soles. That means each step you take requires less effort.

Besides being extremely flexible, this sole also has a built-in "memory." You can bend and flex it as much as you want, and it still returns to its natural shape. 1½-inch heels.

## Cushioned Comfort

How often have you found a fashion pump that also boasts cushioned comfort? Well, comfort is abundant in this pump...soft cushioned insoles...soft, foam-backed nylon vamp linings...and leather heel counters.

Comfortable, Flexible, Stylish and available in Four Fashion-Right Colors. Just the pump for YOU! **Made in the U.S.A.**

# Choose Your Tailored Two-Tone Spectator

Spirited Fashion takes on a new meaning with these **Tailored Spectator Pumps** from Mason. We've created two unique looks, each with their own sleek, two-tone detailing.

It's all beautifully staged on trim 2¼-inch dress heels and flexible composition dress soles.

You can easily see they're designed for fashionable dress wear. They are also fabricated for your foot comfort with leather quarter linings...soft, foam-backed nylon vamp linings...and soft cushioned insoles.

Day or night, you're assured a pleasant, enjoyable fit...and a smart, stylish look. **Made in the U.S.A.**

You can take the criss-cross pumps a step further by matching them up with an attractive, 10½ x 7" **Shoulder Bag**. The front flap opens with a snap to reveal one large main compartment and a zippered wall pocket. Removable strap converts bag to a clutch.

**Made in the U.S.A.**

# Colorful Fashion... Flexible Comfort!

Put a touch of color in your Spring-Summer wardrobe with these **Perfectly Pretty Dress Pumps** from Mason.

All four pumps start with a basic color, then we add a splash of color at the toe and heel.

Their trim lines are accented by 2-inch dress heels for a just right fashion look.

## FLEXIBLES Dress Sole by Mason

Now we come to a comfort feature that you won't detect until you take your first step in these pumps. It's our FLEXIBLES Dress Sole.

This is the sole that's twice as flexible as the average dress sole. It also has a "memory" that allows it to return to its original shape after each flex of your foot.

Inside is more comfort with soft cushioned insoles...soft, foam-backed nylon vamp linings...and leather heel counter.

Colors, colors, colors...all in a comfortable fashion pump for YOU! **Made in the U.S.A.**

You can match up three of these dress pumps with **Shoulder Bags** from Mason. They're a roomy 11 x 7½-inches with a snap flap front that opens to one main compartment and one zippered wall pocket. Strap is removable. **Made in the U.S.A.**

# Swing Into Flexible Ankle Strap Fashion

Ankle straps give dress pumps a graceful, refreshing look. We've added stylish swept-back detailing to the uppers that creates an alluring opening on one side.

Heels are trim and tapered at 2 inches. This style also features our **FLEXIBLES** Dress Soles by Mason. This unique dress sole takes the effort out of walking. They are "easy-walking" flexible from your first step.

Comfort continues on the inside with soft, foam-backed linings and lightly padded insoles. There is even a leather heel counter in back to hold the shape of the shoe wearing after wearing.

Put some new life into your wardrobe with these elegant ankle straps. There's a color that's just right for you! **Made in the U.S.A.**

## Summer Breezes Weave In and Out

Now a cool breeze can become a part of your warm weather footwear.

Mason introduces a stylish pump with delicately interwoven upper strips that create an open, airy effect.

We've enhanced the walking comfort of this pretty pump with our **FLEXIBLES** Dress Sole. It's approximately twice as flexible as an ordinary dress sole. **FLEXIBLES** Dress Soles by Mason also have built-in memory which returns them to their natural shape after each step.

Heels are dress-right at 2¼ inches. Insoles are lightly padded and there is a leather heel counter so this pump will hold its fashionable shape.

Enjoy the Summer Breezes in Mason's Woven Dress Pumps! **Made in the U.S.A.**

## Open Toe Pleating Adds A Touch Of Style

We've given this smart, **Open Toe Pump** some special vamp treatment...pleats on one side...decorative button on the other.

Versatility is another feature of this pump with sleek dress lines and a comfortable, 1½-inch walking heel.

We've added the extra Mason touch with comfort that surrounds your feet...soft cushioned insoles...foam-backed nylon linings in front and along the sides...and leather heel counter in back for stability.

Match your favorite color with a roomy, 12 x 7½-inch **Shoulder Bag**.

Pleated front flap opens with a snap. Inside is one main compartment and one zippered wall pocket. Strap drops in to convert bag to a clutch. **Made in the U.S.A.**

(Styles 3288 and 3219 only.)

Comfort has proven to be popular in dress pumps. That's why we've expanded the color choices in our Soft, Stylish, "Wall Toe" Pumps.

Colors from bright to basic... from smooth to shiny. Colors to match up with any of your dress outfits. And, they all feature comfortable "wall toe" styling.

Our unique "wall toe" is created by each side of the vamp gently rising up to allow extra room for your toes.

You'll notice how this subtle "wall" of comfort is blended perfectly with the smooth, clean lines of this basic pump.

At 1¾-inches, the tapered heel is just right for work or dress. Trim, flexible, composition dress soles complement the heels beautifully.

Mason continues the comfort with soft, foam-backed nylon vamp linings...leather quarter linings...and a folded topline that allows you to slip into these pumps with smooth, no-snap comfort. **Made in the U.S.A.**

STEP INTO THE

*Comfort Zone*

"Ultra Pillo®" Sandals offer you a whole new level of casual comfort in a colorful array of styles and designs for your Summer Time Fun!

## Uncompromising Quality

Sandals this comfortable require special treatment, and we've done just that.

We start with **Super Soft Calfskin Leather Uppers**...add foam-backed nylon vamp linings...then gently handlast them to give you a tailor-made fit.

## Exceptional Fit

You'll find it's more than an exceptional fit, these sandals practically caress your feet with comfort.

Even the adjustable straps are smoothly lined to provide a "tender touch" at your ankles.

## Ultimate Comfort

Next comes the ultimate comfort feature...the **"Ultra Pillo®"** cushioned insoles. Let your feet ease into this total comfort system. Your cares will drift away with your first cushioned step.

Underfoot we have a delightful, 1½-inch, modified wedge that bends and flexes with your every movement.

You can choose from the cork-wrapped wedges on page 100...or the smooth-wrapped styles on this page.

Now comes the real fun...selecting your favorite! You can rest assured, whichever sandal you choose, you'll be enjoying a new experience in walking comfort...**"Ultra Pillo®" Made in the U.S.A.**

For the perfect accessory for your "Ultra Pillo®" Sandals, try our **Rainbow-Multi or Pastel-Multi Handbag**. It's a roomy 10½ x 7½ inches. It features two outside drop in pockets, a snap top that opens to one main compartment and one zippered wall pocket. **Made in the U.S.A.**

STEP INTO THE  
*Comfort Zone*

### Soft and Lively Sandals

Get set for Spring and Summer in these **Cushioned "Comfort Zone" Sandals** from Mason. The look is light and lively...equally at ease with shorts or summer skirts.

Your foot rests on a thick **Velvet-eez** Air Cushioned Innersole. Next comes an extra layer of cushioning at the midsole provided by California construction. Finally there's the resilient, shock-absorbing urethane sole. A lot of underfoot comfort for you!

Soft, foam-backed nylon vamp linings cross over your toes for no-chafe comfort. Even the adjustable ankle strap has a smooth lining. 1½-inch modified wedge walking heel completes this comfort package.

It all adds up to a stylish sandal with "bend-it-double" flexibility and superior comfort. Designed for your walking pleasure...try a pair, today! **Made in the U.S.A.**

These Sandals match up perfectly with our smartly styled Shoulder Bags. Each bag is 10½ x 8-inches with snap flap top that opens to one main compartment and one zippered wall pocket. Strap drops in to convert bag to a clutch. **Made in the U.S.A.**

## Soft, Natural Walking Comfort In A Style And Color For You

Our **Casual Walking Wedges** continue to gain in popularity!

Now, they are available with multi-color, v-throat, vamp treatment...as well as solid colors with smooth, rounded-throat vamps.

Their popularity comes from both the styling and the amazing natural comfort they have to offer you.

Slip them on in the morning and watch how much easier your day goes. "Bend-It-Double" flexibility makes them a pleasure to wear.

Crushably soft uppers wrap themselves around your feet while bouncy urethane soles absorb foot-shocks. Those soles also feature a skid-resistant traction pattern. 1¼-inch walking wedge heels.

Soft Cushioned Insoles provide

# Eye-Catching Reptile-Print

The reptile look is actually a styling bonus to a super-comfortable **Walking Wedge Pump**.

In fact, comfort was our number one goal in designing this pump. You'll understand what we mean from the first moment you slip them on your feet. Check out their features...

- Cambrelle®-covered, soft cushioned insoles. Cambrelle® wicks moisture away from your feet to keep them cool and dry.
- Soft, cushiony, urethane soles provide shock-absorbing comfort. 1¼-inch walking wedge heels.
- Soft, foam-backed nylon vamp linings.

**Made in the U.S.A.**

Match up the reptile-print pumps with attractive reptile-print **Shoulder Bags**. They're a roomy 11 x 8-inches with a snap flap top that opens to one main compartment and one inside zippered wall pocket. Strap drops in to convert bag to a clutch. **Made in the U.S.A.**

# Fold Them Up, Put Them In Your Pocket

These Leather Casuals are so soft and flexible you could fold them up and put them in your pocket.

But, you won't...you'll want to keep that butter-softness right where it belongs, on your feet!

**Crushably Soft, Handlaced, Leather Uppers** are wrapped around your feet with true moccasin construction. Vamp cutouts add cool comfort.

Those soft leather uppers are securely attached to "flex-it-double," rubber-like soles. These soles feature bounce-back shock-absorbency that gives you the feeling of walking on a sponge cushion sidewalk.

Inside this casual is a 3/4-length, leather-covered, cushioned liner with perforated arch for breathability.

Choose the Kiltie or Regular Slip-On.

**Both Made in the U.S.A.**

**Crushably Soft Leather Shoulder Bags** are available in White and Navy Blue. They are 9 x 7 1/2-inches with an overhang flap that lifts up to reveal an outside zippered pocket in front,

perfect for keys and other small items. There's a roomy drop-in pocket in back and a zippered-top main compartment in the middle.

## Fold It...Flex It ...Fun Casual!

These shoes were designed for Fun Times, YOUR Fun Times...backyard barbecues...beach parties...trips downtown...evening walks...picnics...all your leisure time activities.

How did we put "Comfortable Fun" into these casuuls?

First we start with **Butter-Soft Leather Uppers**...then we use true moccasin construction to wrap that soft leather comfort around your feet. They're unlined for cool, natural comfort.

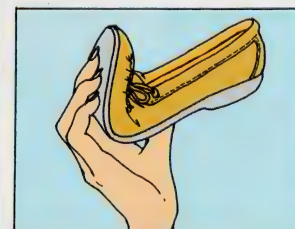

Now, the detailing begins with handlaced toes...kiltie fronts...and a pretty pattern formed by "teardrop" cutouts.

Underfoot comfort is next with soft cushioned insoles complete with a perfed longitudinal cushion. Both essential for your walking comfort.

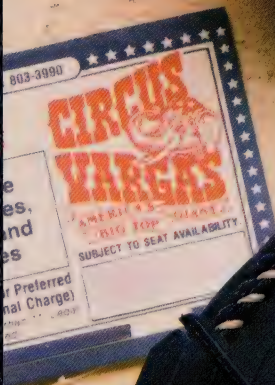

Finally, we come to the bottom of things with our "Bend-it-Double," gum-soft sole. This rubber-like sole puts just the right amount of shock-absorbing cushion between you and the hard pavement.

You'll be pleased to know these soles are also durable, so you'll be enjoying their comfort for a long time to come.

# Soft Leather Uppers Set On Leather Soles

If you enjoy natural leather in your footwear, then our Allegré Casual is just for you.

Leather throughout, starting with **Crushably Soft Leather Uppers**... Leather Soles...Leather-Covered, 3/4-length, Cushion Insoles...Leather Tassels...and Stacked Leather Heels.

There's more...

Those soft leather uppers are handwoven, handlaced and perfed along the sides for cool comfort.

A look at the leather soles reveals they are double-bonded to the leather uppers with both stitching and cement.

A rubber heel tap was added to the stacked leather heels to absorb foot-shocks.

Style, Comfort, Smart Detailing...there's a lot to like about these casuals in addition to their fine leather. Try a Pair!

We also have **Leather Shoulder Bags** available. They are color-coordinated and a roomy 12 x 9-inches.

Snap flap flips open to reveal a drawstring closure top. Inside is a roomy compartment with a zippered wall pocket.

Because the styles on this page are not available domestically, we have imported them from a quality factory. Each pair is inspected by the people in our Mason Factory to double-check the quality for you.

STEP INTO THE  
*Comfort Zone*

**Wrap Your Feet  
In Butter-Soft  
Comfort**

Everything about this casual is designed for soft comfort.

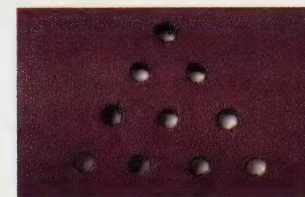

You get your first hint of the softness just by looking at the gently "puckered" moccasin toe. But, there's more...

- **Crushably Soft Leather Uppers.**
- **Cushion Urethane Wedge Soles...** soft and spongy...but oh so durable. 1-inch at the heel.

- **Velvet-eez Air Cushioned Inner-soles** with longitudinal cushion for the ultimate in underfoot comfort and support.

- **Full...Soft...Breathable...Foam-Backed Nylon Linings.**
- **Side Perfs** by the arch for cool breathability.

Comfort you never get tired of.  
**Made in the U.S.A.**

**SIDE PERFS** let air circulate to help keep your feet cool and dry.

# **Tasseled... Puckered... And Soft As A Breeze**

On the outside this smartly styled tassel slip-on has the look that goes perfectly with slacks or skirts...but,

inside is solid comfort designed to take on an 8-hour shift of walking and standing with foot-relaxing ease. This casual starts right with irresistible **Soft Leather Uppers**...the "puckering" at the toe hints of this special softness. We complemented this softness with a durable...spongy-to-the-touch...urethane wedge sole. Its unique shock-absorbing qualities

put a bounce in your step. 1½-inches at the heel. Inside are additional comfort features...full, foam-backed, nylon linings...lightly padded insoles with longitudinal arch cushion...and elastic goring across the instep to assure a gentle, foot-hugging fit. A lot of durable comfort in a soft, pretty casual. **Made in the U.S.A.**

## SLIP-LESS™ Soles Reduce The Hazard of Walking On

Now you can do something to reduce the risk of slipping on slick surfaces with Mason Shoe's SLIP-LESS™ Soles.

### Resists Slipping

This revolutionary slip-resistant sole not only resists slipping on wet surfaces...it also resists slipping on vegetable oils, animal fats, detergents, and engine oil.

### Two Soles In One

#1. Our SLIP-LESS™ Sole is composed of a specially blended rubber compound innercore that provides the majority of its "gripability."  
122 It's also durable and resistant to abrasion.

#2. Then there is an outer wrap of urethane to provide comfort and add cushioning.

### Water and Oils Channeled Away

You'll notice the SLIP-LESS™ Sole has a criss-crossing bottom pattern designed to provide "surface-grabbing" traction, while channeling water and oils away to avoid hydroplaning.

### Versatile Styling

Two distinct styles are available in your choice of colors. Now you can have a shoe that looks smart and is also excellent for working in areas that present the hazard of a slippery walking surface. Places such as kitchens, food

service areas, hospitals, health care centers, supermarkets, etc.

SLIP-LESS™ soles are also lightweight, flexible, shock-absorbing and **NON-MARKING**.

### Quality Built Throughout

- **Soft Leather Uppers** are supple and pliable to give you maximum comfort.
- **Full Cambrelle® Linings** for the styles on page 123. Cambrelle® is a soft fabric that will keep your feet cool and dry. Full, breathable, foam-backed nylon linings for the styles on page 122.
- **Velvet-eez Air Cushioned Innersoles** with longitudinal arch cushion for walking comfort

## Cares Drift Away In “Ultra Pillo®” Sandals

How can we describe the unique comfort of our “Ultra Pillo®” Sandals?

Let your mind wander a little to a tropical beach. Waves are gently brushing against the shore, a brilliant sunset captures your attention, you're totally relaxed.

That's the type of feeling you get from “Ultra Pillo®” Sandals...Total Relaxation!

**Two Styles...**

**Each Offering A Comfortable Fit**

You have two styles to choose from...Double-Buckle or Sling-Back Sandals. Both featuring **Soft, Pliable Leather Straps** with foam-backed nylon linings.

“Ultra Pillo®” Sandals also offer an exceptionally good fit. The buckles are adjustable and the sling-back has two strips of elastic going to assure you a comfortably snug fit.

**“Ultra Pillo®” Foot Cushion System**

Now, let's talk about the unique “Ultra Pillo®” Foot Cushion System.

It's built on a platform of support and comfort. First, there's a foam cushion under your foot... then comes a base platform to provide the support...followed by a 1-inch, blown urethane, microcellular cushion wedge sole for total walking comfort.

The entire platform section is wrapped along the edge with soft leather for the final comfort touch.

You can wear them anywhere. But, even when you're wearing them downtown, you'll be enjoying secluded, tropical beach comfort.

Take the comfort plunge...order your “Ultra Pillo®” Sandals, today! **Made in the U.S.A.**

## WALKABOUT™ Sandals With A "Memory"

Who ever heard of a Walking Sandal with a "memory"? Well, it's here now and it puts these sandals into a whole new comfort category... one that's built for walking.

### "Memory" Insole

The "Memory" Insole. It starts with a unique, spongy, "memory" foam that has the ability to mold and shape itself to the bottom of your feet for a custom-like comfort fit. This "memory" foam is covered with soft leather. Then a comfort-stitch actually directs the foam into the proper areas of the foot bed that require cushioned support.

Bouncy Cushioned Urethane Sole

### Soft Leather Uppers

Your feet will be treated to comfort on top as well as underneath with **Crushably Soft Leather Uppers**. The leather straps are adjustable, so you can fit the sandal just the way you like it.

### Spongy, Cushioned Soles

A sandal this comfortable deserves a cushioned sole to complement it. That's why we selected a bouncy, urethane wedge sole... 1-inch at the heel.

It will gently cushion your feet from those bumps and jolts that crop up while you're out walking.

Double or Triple Buckle...either way you'll be stepping into a Great Fitting, WALKABOUT™ Sandal that remembers you like an old friend. **Made in the U.S.A.**

# Handwoven, Foot-Forming, Leather Huaraches

What makes Handwoven Leather Huarache Sandals so popular?

Besides their unique styling, it's their ability to stretch and conform to each individual foot...and that means genuine foot-hugging comfort for you!

We've added a few styling touches to these popular huarache sandals with a woven design on the vamp and back strap...a stacked-look, 3/4-inch, wedge heel...and a cross-grooved, rubber-like sole for extra slip-resistance and walking comfort.

Slip into a pair of Leather Huarache Sandals and let the customized comfort begin.

**Because the styles on this page are not available domestically, we have Imported them from a quality factory. Each pair is inspected by the people in our Mason Factory to double check the quality for you.**

# Comfort Zone

## Cares Drift Away In The Cushioned Comfort of Mason's Leather Sandals

Slip on a pair of Mason's "Comfort Zone" Sandals and experience a little slice of paradise.

We've combined a thick cushioned insole with a lightweight, supple sole to bring you rubber-like, bouncy comfort. Each step is a new experience in walking pleasure. And, our modified wedge sole is a stylish 1¼-inches at the heel.

There are two styles of **Soft Leather Uppers** to choose from... Quarter Strap or Slide. Both have double-buckle vamp styling so you can adjust the sandals to a comfortable, custom-like fit.

Put some comfort into your dress/casual wardrobe with

Mason's Cushioned "Comfort Zone" Sandals.

**Made in the U.S.A.**

# Soft, Handwoven Leather Casuals

Add a flair to your warm weather wardrobe with **Mason's Cool, Handwoven Leather "Pepita" Casuals**.

Those unique, woven leather uppers not only provide cool comfort, they also give you effortless flexibility.

You'll like the way they gently shape themselves to your feet for a custom-like fit.

Casual, rubber-like soles with mini-ribbed design provide walking comfort and skid-resistant traction.

Because the styles on this page are not available domestically, we have imported them from a quality factory. Each pair is inspected by the people in our Mason Factory to double-check the quality for you.

# Confidential Instructions for Mason Dealers

(NOTE: This section is removable)

The following instructions will help you write up your Mason orders and they will tell a little about the special services Mason Shoe offers you, our Mason Dealer.

Look for **"MASON TIPS"** throughout this page. They are suggestions and ideas that can make your order taking easier and more efficient.

## How Do I Use The Price List?

• **STYLE NUMBER**—Each shoe, boot and handbag is assigned a number that indicates both style and color.

• **SUGGESTED RETAIL**—This is the price your customer pays for Mason shoes. (When compared with other top quality shoes, you'll find this is an excellent value.)

• **DEPOSIT**—This is your cash commission. This is the money you keep. You subtract it from the "Suggested Retail" price and send us the difference.

## How Do I Use The Order Form?

Let's take a look at it from top to bottom...

• **"SEND TO"**—Who do you want the shoes shipped to? Directly to you? To your customer's home address or work address?

**MASON TIP:** If you want to hand deliver your customer's order, write his or her name on the top line, then write "c/o your name and address" on the other lines. The shoes come to you...you deliver them to your customer...and often you will pick up another order.

• **"SHIP VIA"**—U.P.S. or Parcel Post or Air Mail...whichever is best for you. Most of our orders are shipped via U.P.S. **MASON TIP:** Regular U.P.S. and Parcel Post orders are shipped **POSTAGE-FREE**. U.P.S. Air and Parcel Post Air are \$4 extra per pair...Federal Express Air Mail is \$5 extra per pair.

• **"NO. PAIRS...STYLE NO...SIZE...ETC."**—This is where you fill in your cus-

tomers order information. Be sure to look at the catalog page to make sure the shoes come in your customer's size...also double-check the price and style number.

**MASON TIP: Getting the right fit.** If your customer's old shoes are comfortable, order that size. If your customer doesn't know his or her size, use your Mason foot measuring chart...or place their right foot on a piece of paper and make marks at the heel, big toe, and on each side of the foot at the widest part.

• **"CHECK ONE" (Paying for the order)—**

**Prepaid**—If customer pays you cash, or writes the check out to you...just deduct your commission and put it in your pocket. Then send your personal check or money order for the balance with the order. (Be sure to subtract any deposit you collected and kept in the deposit area on the order form.)

If customer writes a check or money order made out to Mason Shoe for the full amount, that's OK, too. Just send it in with the order and we will send you our check for your commission. (Be sure to mark "0" in the deposit area on the order form.)

**Credit Card**—We accept MasterCard, Visa and Discover credit cards. On credit card orders be sure to enter all the credit card numbers in the spaces provided...enter expiration date...and have card owner sign on signature line. If you collect your deposit, mark it in the deposit box on the order form...if you do not collect your deposit, mark "0" in the deposit box. (Once again, if they pay the full suggested retail amount, we will send you our check for your commission.)

**C.O.D.**—C.O.D. orders must have \$3 included with the order you mail in. This cost is in addition to the cost of the shoes. If you collect your deposit, enter the amount in the deposit box...if you do not collect deposit, mark "0" in the deposit box.

(NOTE: You or your customer must

be home, or at work address, to take delivery of C.O.D. shoes. If no one is there to accept shoes, they will be returned to Mason Shoe as an unclaimed order. Also, you must have cash or a money order ready for the exact amount...the delivery person will not accept personal checks.)

• **"SALESPERSON'S SIGNATURE"**—

We ask you to sign and date each order form. This is a legal formality that basically states, you are your own boss.

• **"PRINT OR STAMP YOUR NAME...ETC."**—Your name should be the same on every order form so you get full credit for the order. Be sure to notify us if you do have a name or address change.

## How Long Will An Order Take?

Normally we tell our Mason Dealers their order will take 7 to 14 working days from the time they drop the order in the mailbox until the shoes arrive in their hands.

This time may vary depending on your distance from Chippewa Falls, Wisconsin...delivery service in your area...holidays...etc.

**NOTE:** We can process approximately 95% of all orders within 24 hours. That means 24 hours from the time the order comes in our doors until we put the shoes on a delivery truck.

## Can I Speed Up My Orders?

**YES!** Mason has several options for speeding up orders.

**#1 TOLL-FREE Order Lines for credit card orders.** You can save a day or two just by phoning in your credit card orders...MasterCard, Visa or Discover. Our Toll-Free Order Number is **1-800-826-7030**. Order Lines are open from 6 a.m. to Midnight (Central Time)...7 days a week, with the exception of major holidays. (NOTE: If you phone in a credit card order, DO NOT mail the order in...this could cause a double shipment.)

**#2 AIR MAIL DELIVERY.** Air Mail costs \$4 extra per pair, but it can speed up your order a few days. You can specify either Parcel Post Air or U.P.S. Air.

**#3 FEDERAL EXPRESS AIR and FEDERAL EXPRESS OVERNIGHT.** (See Federal Express Information on page 140.)

## What About Returning Shoes?

We want each customer to be completely satisfied. If not, they can return the shoes prepaid by insured Parcel Post or U.P.S. to: **Mason Shoe Co., Chippewa Falls, Wisconsin 54774. ATTN: Adjustment Department.**

Complete instructions for returns are packed with each order. All returns are handled manually, so please allow three weeks for processing.

## What If I Have A Question On An Order?

Either mail us a copy of the order along with your question...or call us on our **Toll-Free Answer Lines...1-800-826-7102...** (In Wisconsin use the regular order number...**1-800-826-7030**.)

**MASON TIP:** Before writing or calling, be sure to find out if your customer received any notice from us concerning the order. (Any time an order is delayed, we notify the customer.) **Please have a copy of the order in front of you before calling.**

## Does Mason Make Special Order Shoes?

NO, we are not able to make special order shoes. We can only fill orders for styles in the colors and sizes described in this catalog.

**MASON TIP:** Sometimes we have styles available from our previous season's catalog. Drop us a note and ask if you're interested in a shoe that's no longer available in our current catalog.

## Speed Up Your Orders With Federal Express

### • Overnight Federal Express

When you need **next day delivery**, ask for Federal Express Overnight Service. This service allows one business day at Mason Shoe... one to process...and one to deliver. **NOTE: This service is for phoned in credit card orders ONLY...they must be phoned in no later than 1:00 p.m. Central Time. COST: \$15 per item.**

**Example:** If you phone in an order Mon. morning...it will be shipped on Tues.... and delivered to you by Wed....if not, we will refund your \$15. (No deliveries Sat. or Sun.)

### • Standard Federal Express Air

If you need your shoes in a hurry, use Standard Federal Express Air. This service allows one

business day at Mason Shoe...one to process...and two to deliver. **NOTE: This service is for phoned in credit card orders, before 1:00 p.m. Central Time... or mailed in prepaid orders. COST: \$5 per item.**

**Example:** If an order is received, or phoned in, on Mon. morning...we will ship Tues....and delivery will be made on Thurs....if not, we will refund your \$5. (No deliveries Sat. or Sun.)

**NOTE:** Federal Express services are available for the 48 continental United States only. Also, Federal Express will not deliver to a P.O. Box. Be sure to include your phone number and area code to aid in delivery.

**You Can Call In Your Credit Card Orders on Mason's Toll-Free Phone Lines**

**1-800-826-7030**

**6 a.m. to Midnight**  
(Central Time)  
**7 Days a Week\***

\*So that our employees may spend the holidays with their families, our Toll-Free Order Lines will be closed on Easter Sunday, Memorial Day, July 4th, Labor Day, Thanksgiving, Christmas, and New Year's Day from 5 p.m. the day preceding the holiday until 6 a.m. the day following the holiday.

We are members of Boot and Shoe Workers, Local 268, A.F.L.-C.I.O., Chartered by United Food and Commercial Workers International Union.

### THE MASON GUARANTEE OF SATISFACTION

We're confident of the quality of all Mason products...we want you to share that confidence. It's important to us that you are completely satisfied, so this Guarantee is in effect for **One Full Year**.

#### Workmanship -- Materials

FIRST, if workmanship or materials are not up to Mason's High Standards, return the product to us and we will either **REPLACE**, **REPAIR**, or **REFUND** every cent paid us.

#### Style -- Size -- Fit -- Comfort

SECOND, if the style, size, fit, or comfort isn't everything you had expected, return them and we will either **REPLACE**, or **REFUND** every cent paid us. (NOTE: If the returned product shows signs of wear, we will make a fair adjustment based on the amount of wear.)

We are not able to cover any damage due to accident, misuse, or abuse.

#### Instructions For Returning Merchandise

Mail the merchandise prepaid by insured Parcel Post or U.P.S. to: **MASON SHOE CO., Chippewa Falls, Wisconsin 54774.**  
ATTN: Adjustment Dept.

Make sure your name and address are printed on the package. Put all correspondence inside the package.

We look forward to serving you for many years to come!

# Collect Sales And / Or Use Taxes In These States, Counties And Cities

(Rates in effect 10-1-88 subsequent changes may have taken place - please calculate at proper rates)

Sales and/or Use Taxes must be added to all orders sent to states (or cities) listed below. Appropriate tax rates used should be based on the destination of the merchandise ordered. Tax must be charged on the FULL price, before deposit is deducted. For example: If the full price is \$27.95 in a 5% tax area, locate \$27.95 in the FULL PRICE column on the TAX CHART on the next page. You will find the correct

tax in the 5% column. The tax is \$1.40. Add this to the full price, making a total of \$29.35. Be sure to write the correct amount of tax in the "TAX" space provided on your order blanks. We are registered in all of the areas below and are authorized by them to collect and forward the tax payments.

**EVAFLEX:** (See Vibram Evaflex)

**FACILE FRAME:** This is a spring loaded closure system used in our purses. It snaps closed or snaps open with a gentle pull on either side of the top.

**FOAM-BACKED NYLON LININGS:** This is also known as tricot lining. It's a comfort feature that provides a cushioned layer of foam between your feet and the upper material of the shoe. The smooth nylon covering helps prevent snags and runs. (NOTE: Brushed nylon linings are similar in purpose, but instead of a smooth finish they have a velvety finish.)

**FULL GRAIN LEATHER:** When you look closely at this leather you see the natural grain come through. It is specially tanned and finished to accentuate this natural look.

**GLOVE-SOFT LEATHER:** A specially tanned leather that becomes extremely soft and pliable. Originally used in glove-making, now used in casual footwear as well.

**GLOVE-TANNED:** (See Glove-Soft Leather)

**GUSSETED TONGUE:** (See Bellows Gusset)

**HEEL COUNTER:** A piece of stiffening material placed in the back part of the shoe between the outer leather and inner lining. It provides lateral support, makes it easier to get the shoe on and off, and it allows the shoe to hold its shape.

**HANDBURNISHED:** (See Burnished)

**HYPALON:** One of the toughest sole materials available. Extremely resistant to oils and grease. Will take an unbelievable amount of rough use. Non-marking, lightweight and flexible. Also referred to as our "Jubilee" Sole.

**INSOLE COVER:** This is the smooth covering that goes over the insole. It allows you to slip your shoes on and off with ease.

**JUBILEE SOLE:** (See Hypalon)

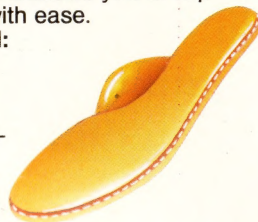

**KRATON:** Kraton is a sole material similar to rubber, but it has more bounce and flexibility. Kraton is great for walking, running and leisure shoes. It resists wear, abrasions and scuffing.

**LEATHER QUARTER LININGS:** Leather quarter linings go around your heel on the inside of the shoe. It adds support, plus it allows you to slip in and out of your shoes with ease.

**LONGITUDINAL CUSHION:**

Also referred to as "longitudinal arch cushion." It's an added comfort feature often found with our Velvet-eez Innersoles. It's a firm piece of foam cushioning built-in next to the arch of your foot.

**MICROCELLULAR CUSHION SOLES:** A foam-type material similar to cushion crepe. It is a "blown" sole that contains thousands of tiny air

cells that contribute to its soft, cushiony feel and extreme light weight. It is a non-marking sole used mainly in athletic, casual and sporting shoes and boots.

**MOCCASIN CONSTRUCTION:** (See True Moccasin Construction)

**NEOPRENE:** A manmade sole material. One of the original composition work soles. It's long wearing, oil-resistant, grease-resistant, but slightly heavier than other work soles. Neoprene will mark floors, so it is best suited for garage, factory or outdoor work.

**NITRILE:** Nitrile refers to the compound that is added to a rubber based service sole. It gives service soles exceptionally long wearing qualities. It is also flexible, oil-resistant, grease-resistant and non-marking.

**OAK-TANNED LEATHER SOLES:** Mason leather soles are cut from the thickest part of the hide. Oak tanning toughens the hide, condenses it, and preserves it. Leather's good looks and light weight make it an excellent dress sole.

**OIL-TANNED:** Oil-tanned leather receives an extra treatment of oil in the tanning process. This extra oil makes the leather more water-resistant... acid-resistant...grease-resistant...and oil-resistant...more durable in general. It's also softer and more supple than regular leather. You'll find oil-tanned leather used mainly in service shoes and boots.

**PLANTATION CREPE:** A casual sole material. Originally got its name because its main ingredient came from rubber trees located on plantations. Today it is produced with a longer wearing, more durable synthetic latex. It is characterized by its bouncy nature and a pebbly grain which gives it added traction.

**QUARTER:** This is the back part of the shoe upper that goes around your heel.

**STORM WELT:** Also called "Weather Welt." It's a narrow strip or bead of leather or manmade material that runs around the seam where the sole and shoe upper meet. It seals out dust, dirt and moisture.

**SHAFT:** This is the part of a boot that goes around your leg. It is attached to the foot of the boot.

**SOFT CENTER RUBBER INSERTS:** A raised, cushioned rubber insert is placed in the middle of our dress heels. This insert provides added shock-absorbency to reduce the jarring effect of walking. It will put a cushioned bounce in every step you take.

**STITCHDOWN CONSTRUCTION:** A quality method of shoe construction often used in walking shoes to allow extra room for your toes.

Instead of wrapping the leather uppers under, the uppers are turned outward and stitched down through the sole.

**TEMPERED STEEL**

**SHANKS:** Our steel shanks are heat treated (tempered) for added strength. They are placed in the area between your heel and the ball of your foot. It adds stability to the shoe.

**"TRIPLE-ACTION"**

**BOTTOMS:** This refers to a unique combination... (1) soft cushioned insoles... (2) light, flexible, shock-absorbing midsoles... and (3) tough durable outsoles. Any Mason casual or athletic style with those features would be considered "Triple-Action."

**TRUE MOCCASIN**

**CONSTRUCTION:** If you've ever seen an Indian moccasin, you'll understand what we mean by true moccasin construction. The leather is wrapped around the bottom of your foot then stitched at the toe on top.

A sturdy sole is then stitched and/or cemented to the leather. Your foot is actually wrapped in a comfort "tunnel" of leather.

**UPPER:** This is the part of the shoe that surrounds your foot. It is attached to the sole. It is made up of such parts as vamp, quarter and tongue.

**VAMP:** The front part of the shoe uppers.

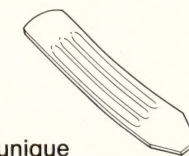

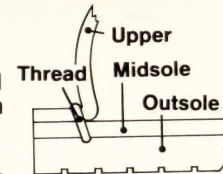

**VIBRAM® EVAFLEX™:** Made of a new and advanced microcellular rubber compound. Lighter in weight, more shock-absorbing, and more abrasion-resistant and oil-resistant than regular cushion soles.

**V-NOTCH ACHILLES PAD:** Usually found in walking or jogging shoes. It's a notch located in the back of the shoe at the collar. It provides extra cushioning and support for the vulnerable achilles area.

**WELT:** A narrow strip of leather or manmade material that is stitched to both the upper and the insole, then stitched to the outsole. Used in Goodyear Welt Construction.

**WESTERN COWBOY SHANKS:** A specially designed tempered steel shank with an extra bend to it that allows for the taller heels on western boots.

**WESTERN HEELS:** A tapered heel used mainly on western boots. It tapers from top to bottom. Originally designed to slip into, and hold a foot in, a stirrup.
